Madhuban **On the first anniversary of Brother Brijmohan, divine message of bhog offering to beloved BapDada via Mohini Didi** **09/10/2026**

Today, when I arrived in the subtle region carrying everyone's love and remembrances, there was a very beautiful scene in the subtle region. On the right side of Baba, Brijmohanbhai was standing in the middle of a decorated arch, with his hand of blessings. When Baba's drishti fell on me, there was an exchange of a very sweet and loving drishti. I said: Baba, I have brought remembrances and bhog for You, Brijmohanbhai and all the ancestor souls.

Baba then showed a beautiful scene, in which Brjimohanbhai was visible in the form of a young Raj Kumar (prince) with two crowns. One crown was of His holiness, that is, of purity, and the other of His Highness, that is, of the kingdom. Baba said: This child has served the religious field and the political field with a lot of love. He has many samples of religion and politics; he brought many of them together. He became an embodiment of dharna according to shrimat and used virtues and powers. The child was always internally engaged in planning service of the yagya extensively. He was also an expert in administration.

At the time of offering bhog for Dadi Ratanmohini too, Baba had showed a scene of how she has taken birth as a prince or princess to a well-known and respected royal family. Similarly, today also, I saw Brijmohanbhai also had both crowns. I said: Baba, You have shown me a very beautiful and very clear scene.

Baba said: The child had very good balance in his life. To the extent that he had spirituality, he also had very good relationships. To the extent that he was humorous, he was also serious. If he had to face something or he had to accommodate anything, he moved along with balance in both situations. Baba used to say: You have to reveal who the God of the Gita is. So, according to Baba's instructions, he tried to do this very well till the end. In this way, Baba was telling me about his many specialities. I said: Baba, You are calling all our senior brothers, and we are missing them in the yagya. Baba said: You have to move forward. The confluence age has to move forward and become the golden age. So, there is a need for such souls in the golden age and in the kingdom.

I then said: Baba, I have brought bhog. Bhai-saheb used to feed everyone with a lot of love. I offered bhog to Baba and then, together with Bhai-saheb, Baba offered bhog to all the main brothers, Dadis and Didis. Baba also invoked the main brothers and Didis from here and offered bhog to them too. Baba said: Every child thinks about the future, but the future is created only on the basis of the present. So, not only must you have a satopradhan, heavenly stage at every moment on a particular day, because now heaven is about to come. So, now everyone must pay attention to this one thing: Whether it is my thoughts, my nature, any of my sanskars – all of these have to be satoguni. Experience in your life now heavenly sanskars, heavenly happiness and heavenly attainments. When you are in this form now, it will not take long for Baba to be revealed. Baba now wishes to see every child in the double-crowned form. Let there be very good balance. You must also be in a complete and perfect form of the aim that Baba has given. Looking at Bahi-saheb, Baba said: Do you wish to give a message to the children and the family? Smilingly, Bhai-saheb said: Baba, You have said everything. Everyone is moving along while following one direction, but now, at this time, everything has to be accomplished with spiritual love and unity. Bhai-saheb gave this one thought for everyone. Then Baba gave love-filled drishti to everyone and I came back here from the subtle region.
