

04-06-2026- Baba's Bhog Message - via Mohini Didi ji

In remembrance of Baba, I went to offer bhog to Baba, on this day of the Satguru. Baba always invokes children and then welcomes children, and fills us with very, very loveful and powerful drishti. And after a few moments, I said to Baba that I brought bhog from the family at Peace Village. Baba, with lot of love, accepted bhog.

After a few moments, Baba said, "Whatever children think, it reaches Baba." Then Baba said, "In the whole world, there is a critical time, but for you children, it's an auspicious time. So never-never get affected, influenced by the critical time in the world. But always remember, we are at the Confluence Age, in an auspicious time. There is decline in everything, and you are ascending. So always remember, this is an auspicious time and your ascending degrees."

Then Baba said, "Each one of you has accumulated your fortune. And even at present, whatever time is there, accumulate your fortune more and more. That is through each thought, good wishes, blessings, earn unlimited through your thoughts. Same with your words. As much you can, serve through words and then through actions."

Baba then said, "At the Confluence Age, whatever fruition/ status you will get in golden age is different. But there is fruition even at Confluence Age. So, when you are serving through the mind, you will always remain happy, stable, and feel very secure. Your mind will not go through upheavals. Even there will be upheavals outside, but your mind will stay very, very peaceful with love and in the company of Baba." Baba said "Not only your mind, but Baba will take care of children."

But then Baba said, "Sometimes children forget, so they get influenced by what they see in the world, hear about the world, hear about others." Baba said "that's not for Baba's children. You are not in that old world." So today, Baba wants to remind children that Baba has chosen all of you, adopted you, and then Baba becomes responsible as parents for all the children. Never, never, be worried or heavy about what will happen to me, what will happen to this one. Baba has adopted you." Baba said, "So Baba is responsible." Baba was looking at children as if, "Why there is sometimes this thought of a scarcity? Whatever is there, just have total trust and faith in Baba and maintain your stage." Baba said "You are not only the Yagya's flame, but each one of you, you are also a flame. So, carry on, move forward. Not even for a moment allow your mind to think of what will happen or 'I don't have'.

Baba's children are fortunate and Baba, the One who has all the treasure stores, is your companion. If your companion is a fortune maker, then why do children have to be concerned about anything?" Baba said, "Tell, not only the children here, but in the whole world, that you all have fortune, a right to Baba's treasure store. Just pay attention to not waste anything. Don't waste your thoughts, your time or anything. Not only save it, but use it in a worthwhile way. Use everything, every thought through the body, and do lots of seva. Yes, time is short, but you can use time in a worthwhile way."

Baba said, "If you don't waste anything, if you use everything in a worthwhile way, Baba's guarantee is always with children. But if you are not only careless, but even concerned or worried, it's a wastage, no? So, remain carefree, remind yourself of the time and company of Baba, and just be very, very sensible to use everything in a worthwhile way."

I always brief Baba little bit about what we are doing and so Baba said, "Yes, it's not only 90 years of the Yagya, but each one of you has been with Baba for many, many years." So Baba gives love, congratulations, and wishes you to keep celebrating your life. It was very beautiful the way Baba was giving us assurance of everything and reminding that you all are getting little bit effected by what is happening in the world. Preparing is one thing, being sensible is one thing, but not being concerned is also important. Then Baba gave lots of love, remembrances for each one. Om Shanti.
