Bhog Sandesh | Aug 25, 2026 Dadiji's Day | via Mohini Didi

Om Shanti.

From each one of your hearts, I took the love you have towards Baba and towards Dadiji as an instrument to offer *Bhog*. There was love and serenity in Baba's *drishti*; I was having that experience of the maturity. Lots of love, and also very serene. I kept taking *drishti*…Baba was giving everyone *drishti*.

I said: Baba, I bring *Bhog* for you and Dadi.

Baba invoked Dadiji for some time. As Baba was invoking Dadiji, Baba offered *Bhog* to Dadiji. After that, Baba told Dadiji to give *drishti* to everyone. Dadiji was in the Subtle Region for a very short time. With the same smile, she was giving *drishti* through her face to everyone.

Baba said: Where there is true love, you get coloured by their company. And you also have to become equal to them. Baba gave the responsibility of the entire *Yagya* when He put His Hand in the hand of Dadiji. And Dadiji maintained the stage needed to assume that responsibility.

Then Baba said: **Dadiji was a Raj Yogi, and also a karma yogi**. Dadiji was the ruler over her mind, sense organs and *sanskars*. They were all under her control. And she always stayed a karma yogi. She did all types of service taking care of the *Yagya*. There was a lot of expansion at the time of Dadiji.

Baba said: Everyone has to become the master of the kingdom. If any of the sense organ does a mistake, the account of accumulation will be reduced. On one side you are accumulating, and on other side you are losing – so what is left behind. For the one who is a self-sovereign, no sense organ will make a mistake. Not in their *drishti* nor in their attitude. **Have such beautiful good wishes towards the self and others** and cooperate through your pure attitude and pure *drishti*.

Then Baba said: May everyone be happy and may everyone be *raazi* (cooperative in everything). Dadiji kept an aim. Whatever has to be done, **Dadiji would do it from her heart**, **with a lot of love**. **She would do it with a lot of interest and dedication.** You are also a karma yogi. Sometimes, because of some confusion or another you are not able to do it with your heart. You are doing the karma, but do it with absolute interest in the service of the *Yagya*.

So Dadiji just kept accumulating and accumulating. She was able to finish her karmic accounts also. But she was accumulating so much, that she was always an easy effort maker – never struggling. She progressed by taking everyone's blessings. We definitely need Baba's Blessings, but also everyone else's blessings too. Because the means of moving forward is to receive blessings and good wishes from others.

So Baba wants everyone to be an example, a karma yogi like Dadiji, and a natural effort maker. No struggle – natural. Dadiji kept an aim to make quality effort. Whether someone was junior, senior or equal, all were able to easily follow Dadiji. Whatever age group, in attitude, surrender and service – all easily followed Dadiji. You have all experienced Dadiji's many specialities. But today, Baba is underlining this particular aspect. In current times, all of you children should have this kind of quality effort.

I said: Baba, today I was feeling you are very serene, that is, serious.

Baba said: Yes, Baba is serious. But Baba is also happy with everyone. Baba is giving this blessing to all: Child, keep moving forward and **make your stage constant**. When you wake up in morning until night, have one constant stage. Then, slowly, you your will stabilize in your complete, perfect stage.

So Baba is giving us a signal. You will get test papers until the end. But children have the blessing of passing with honours.

Baba then gave *drishti* and love to everyone. And then I took love and remembrance for everyone, and came back.

Om Shanti.
