

Bhog Sandesh | February 27,2026 via Mohini Didi (Madhuban)

Om shanti.

Carrying everyone's love and remembrance, when I went to the Subtle Region today, Baba was looking at the children of the whole world. Baba held up His Hand of blessings, giving to everyone. And His *Drishti* was taking everyone beyond. His *Drishti* was filled with blessings, love and power. He remained like this for a few seconds...then Baba welcomed me through His Eyes. I offered *Bhog* to Baba with a lot of love, giving everyone's love and remembrances. I was also remembering Dada Vishwa Ratan, as this was the anniversary date of that soul's ascension. Then Baba spoke:

At this time, what type of service is needed? Just as Baba takes us all beyond with His *Drishti*, in the same way, through your own *drishti* you have to take all souls beyond. Even before speaking, we meet through the eyes **...give such *drishti* that souls experience God's Love. Be the embodiment of blessings and have God's Love in your *drishti*.**

If you ever wonder what to do, keep Brahma Baba in front; follow in his footsteps. Then, it is easy. **When you need direction or guidance, just look at Brahma Baba and he will guide you.** You will receive whatever directions you need.

Even while looking after all responsibilities, the crown of world responsibility, the children should also have the **crown of light. This crown represents purity, but also remaining light in our stage.** Such times are coming that things will happen. Two things in particular:

1. Give Baba's introduction through your angelic form.
2. In a short time, Baba's Revelation will take place.

Wherever the children are, remain in your angelic form. Souls want God's Loving *Drishti*, and you remain ready to give that experience.

I shared with Baba that it is the 90th Anniversary of the *Yagya* ...of course Baba is very aware of all of this. There is the feeling in Bharat and the whole world to celebrate this with a lot of splendour. Baba shared:

Yes, 90 years of the *Yagya* is completed. And service is taking place. This anniversary is meaningful to ourselves, and so Baba's children can celebrate the 90th anniversary. But the world also has to be served. We ask Baba 'what topic should we use?' and 'how should we celebrate?' It is okay to clarify these things, **but there must also be *tapasya* – for the world.** Through your *tapasya*, there will be visions in the world. As the children of the Remover of Sorrow and Bestower of Happiness, you have to give the experience of happiness. Celebrate the anniversary, but also focus on your own spiritual progress. Also have determined thoughts for the self. Every thought has to be elevated, and your vision for all has to be the angelic ...the *drishti* of an angel. Do not see name, form, behavior or nature. Only spiritual *drishti*. Make effort on the self, and through own efforts, take help from the atmosphere created. It will feel like a gathering of angels. Be a bestower by giving through your *drishti*. Stay in your self-respect and be a self-sovereign. We celebrate this *Yagya*, through being a karma yogi, a renunciate, and *tapawasi*.

Congratulations! Maintain one aim of the gathering, for one direction (*ekmat*) and unity (*ekta*). With this aim, you will complete the Godly task quickly.

And then Baba again gave lots of love and remembrance, to all – including those celebrating 50+ years of Brahmin life.

Om Shanti.
