Om shanti.

Taking everyone's remembrances, when I went to offer Bhog to Baba, Baba's Drishti was full of love. Full of love...and also power. Baba was looking the entire gathering, the whole family collectively, but Baba was also giving drishti to each one of you.

After sharing drishti, Baba looked at me and I said: I've brought Bhog on behalf of the entire family. He gave sweet drishti, and accepted Bhog with a lot of love.

For a moment, Baba was quiet, just giving drishti. And then BapDada said: All the children are making good effort, but **sometimes they forget the aim**. If one is studying to become a barrister, they never forget while studying what their aim is. Whatever you are studying, it is normal for one to remember that. Do you remember why you are studying? What do you want to become through this study? When you listen to Murli or have spiritual chit-chat, are you aware of what you are becoming through all of that?

With knowledge, you have already changed your life...and you have adopted a life of purity. That is why you are called 'Brahmins'. But after becoming Brahmins, your effort is to become an angel...and from angel to become a deity. But, the foundation is Brahmin life, that is, a life of total purity. The light of purity has to sparkle from each one's face and vibration. And you are able to live this life of purity because of your love for Baba. Baba's Love has adopted you. You cannot become completely pure without Baba's love and help. As much as you remain pure, that much you will remain very light. There will be the sparkle of light, and internally there will be the lightness of purity. There will be words of purity, and through purity, you will spread vibrations of peace to the world. Perhaps the result is not evident to you at this time, and you question whether it is happening...but it is definitely happening.

You are all the sapling of the new, divine pure world. Out of the billions of people in this world, Baba has chosen each of you. Each one you has to be a good instrument. As much as you keep Brahma Baba in front, then you will be inspired and get courage. At the age of 60, Brahma Baba got the message. For 33 years, he made efforts and became avyakt. Out of billions of souls, the wonder that Brahma Baba was chosen as the medium.

Baba was quiet from a moment, and then said: The Father does appreciate everyone's renunciation, cooperation and enthusiasm to be a right hand is His Task. But consider the example of Brahma Baba: He had 300 souls to take care of. While having all that responsibility, internally his attention was constantly on his inner spiritual journey. Sometimes you all get so busy in intellectual activities and projects that fill your time – that you forget to help each other on that inner spiritual journey.

The blessing today from BapDada is to give more attention to your ascending journey to become an angel. This confluence age is the time to be more divine. Because there is a lot of worshipping and invoking of the deities. So, **awaken the divinity within yourself**. I asked Baba: 'how do we recognize the experience of divinity within the self?' Baba said: In Hindi, deity is *devta*...constantly bestowing. Don't look at how much others are taking...don't allow your enthusiasm to reduce. Just bestow. Bestow blessings. Love and peace ARE blessings. **Share and bestow blessings.**

In addition, whatever the atmosphere of the world around you, you remain in such a stage of soul consciousness and remembrance of Baba that the surrounding atmosphere does not influence you. Sometimes the atmosphere of the world or the vibration of each other influences you, and creates blockages in the intellect, so that you cannot receive clearly a current or signals from Baba.

You know the reality of the lokik world. Baba said transformation of world has to happen. It has to change from old to new, and you are the instruments for this transformation. So **whatever is happening, you have to be a deity, divine, and bestow**. Everyone in the world is suffering in sorrow, fear, and worry. You children have to keep bestowing love through your cheerfulness, enthusiasm and courage.

At the end, your drishti should reveal the attraction of Baba's love and presence. No attraction of the self. Just Baba. [Mohini Didi shared...] When we looked at Brahma Baba, we saw Shiv Baba in Brahma Baba. We never looked at Brahma Baba. Whenever I went in front of Brahma Baba, I experienced I was looking at Shiv Baba...and that Shiv Baba has to give me drishti through Brahma Baba. Brahma Baba never said to remember him. The sins would not be absolved by remembering him. He also would always point to Shiv Baba: remember Shiv Baba.

When we think of anyone, they should be reminded of Shiv Baba. Through drishti, words and relationships, Baba should be present. Then it will not just be personal help to one soul, but vibrations will spread in an unlimited way.

I shared: Baba, the majority say that they have never seen you. Baba said: the seed and the roots are never seen. Shiv Baba is the seed. Adi Dev and the Dadis/Dadas are the roots. They are not visible, but we know they are the foundation. Brahma is known as the foundation, or founding father, of the whole kalpa tree.

I could feel Baba was sharing with us this way to create a wave of enthusiasm to become tireless bestowers – deities. Then He gave lots and lots of love to each one. Today is the day of love.

Om shanti.
