Om shanti.

I took everyone's love and remembrance as I reached the Subtle Region. Baba with very love-full *drishti*, looked at each one of us and then I said: Baba, I have brought Bhog. Baba accepted Bhog with a lot of love.

Baba was still giving *drishti*. And, through that *drishti*, He seemed to be clearing something for everyone. Baba is the Bestower. He has come to give everything to the children. The Bestower is unlimited, but children are sometimes limited in receiving. **So increase the power to receive from Baba. For that, what is important, is a clear line of intellect.** All the time, pay attention that nothing makes the intellect heavy or stuck somewhere. As much you keep your line clear, you will receive all the powers from Baba.

Then Baba said: you are all *basant*: you share knowledge all the time. But you also have to be *roop* and *swaroop*. *Swaroop* is embodiment. At this time, always create a divine, Golden-Aged atmosphere – the experience of Satyug. Whatever is in Golden-Aged, that is, the *jeevanmukt* stage. There is of course purity. But also peace, happiness, joy. So be that. **Wherever you are, create that atmosphere of lightness, joy, happiness.** People are looking mostly, for peace – but they don't know exactly what happiness is. So your *swaroop* should make them feel, not just peaceful, but also very light and also happy.

If you have that *swaroop*, then that means that whatever you shower as *basant*– they will also be able to experience that. Because when you give knowledge as *basant*, the impact should be that they experience. And as Baba said, you now have liberation and liberation-in-life...so others will also experience how you are changing...you have more happiness, and no sorrow or worries. That change will be experienced by others.

Baba also said that He was looking at each one's account of blessings. You will definitely accumulate blessings from the service you do. But, as much as your *drishti* towards everyone is a blessing, then naturally others will also share blessings back. So do not only give knowledge, but share blessings with everyone. Whatever Baba is giving you, be a Bestower like Baba and earn your fortune.

Then Baba was again giving *drishti* – as if clearing our line of intellect.

Lots of love, remembrances to everyone. Om shanti.
