Om Shanti.

Taking everyone's love-full remembrances...Baba called me to offer Bhog...

Today is a very special day: Guru Purnima (*Guru Purnima is a religious festival dedicated to offering respect to all the spiritual and academic gurus*). So there is the feeling since morning of Baba as our Satguru. What is that relationship of Satguru? Baba, you are our Satguru, but not only Satguru. You are our Father, Teacher and Satguru. You children are very, very lucky that you have all three relationships with one Baba. There are teachings from the Father, and from the Teacher, and from the Satguru.

As part of a clan, the Father always thinks that children should be heir souls. To become an heir soul, the child must inherit all the qualities, all the knowledge, all the powers from the Father. Baba always gives drishti looking at everyone, and asking: **are you an heir soul?**

I asked Baba: every soul will get an inheritance from you – so what is difference between heir souls and others. The prince will be the next king. At Confluence Age, heir souls are those who make others belong to the clan – and make them heir souls too.

I was still looking at Baba and asked: Baba, what do we have to do?

Baba wants each one to be the heir soul. For that, the teachings of the Father, like any parent, are about character, family, etc. Teacher's teachings are making you worthy to earn an income. Satguru's teachings are blessings.

In English there is the one word: Blessing. But there are the different words: varadaan, asheervaad, kripa. A guru looks at specialty of the follower; that this child is special in this. And then the guru, based on that, will not only give teachings – but also special blessings (varadaan). **Every specialty Baba changes into a special blessing.** You children have to feel that blessing – use that blessing. Baba not only has love for every child, but also sees, as Satguru, the specialties. So the value of every child is based on the specialties.

Children should also should have drishti towards everyone, seeing their specialties. Your drishti on their specialty will become a blessing for them. This is what it is to give blessings and receive blessings. This is effort required at present time.

Then, Baba gave very love-full drishti to each and every one of us.

Om shanti.
