

Bhog Sandesh | July 23, 2026 via Mohini Didi

Om shanti.

In remembrance of all of you, I reached in front of Baba to offer *Bhog*, and Baba welcomed the whole gathering with love-filled *drishti*. Baba was giving *drishti* to each and every one. Baba was seeing each and every child as always full. With His Sweet Drishti, Baba was filling everyone with powers, virtues, and qualities. **Baba was giving this blessing through His Drishti: that everyone is always full and happy.**

Then, I said: Baba, I have brought *Bhog* for you. Baba, while still giving Drishti, accepted the *Bhog* with so much love.

Then Baba asked to each and every child: Do you all know how to fly? (And I felt, yes, each of us should know how to fly.)

Baba said: There is no effort to fly. But, you need wings to fly. If you have wings, you can fly easily. Baba always gives wings to all of you. Those who really want to experience this flying stage just need two qualities: **trust and courage**. Everyone has faith in Baba in the intellect. But along with having faith, there should be **trust in your mind. Then along with that trust – you will need courage**. There are so many scenes and situations outside, and also through your body. But just fill yourself with that trust and faith, and then courage – and you will be able to go beyond. What happens when you go beyond? When you are above and beyond, even something very big is experienced as very small. Just when you are in a plane up above...things on the ground seem tiny. When you start flying, everything will seem small.

This is a special blessing of the Confluence Age. This is the only Age when we are aware. The world does not know about this age – they only see the Iron Age. But we Brahmins know we are in this Confluence Age, on our way to Golden Age. We are becoming *satopradhan* from *tamopradhan*. **This is the time to accumulate multi-million fold income through each and every action. This is also the time to settle everything. So, we are creating our account, and also settling our accounts. When we settle we feel light, and when we accumulate we feel powerful.**

This Confluence Age is the time to get ready for the Golden Age. Are you all feeling that way? Do you feel ready? Do you like the Golden Age more, or the Confluence Age? Both? In order to go to the Golden Age, we have to be ready at the Confluence Age. We have to create the Golden Age at the Confluence Age. Baba was reminding us that we create everything now. In the Golden Age, there is just constant happiness. **We emerge those *sanskars* of such a constantly happy world, now.** At this time, in the Confluence Age, we prepare to go back home. Baba is giving us beautiful experiences of the Golden Age at this time.

And, whatever questions you have about the Golden Age (because Baba could feel that we did have questions), you will have such experiences that you will feel those attainments. And, with your elevated intellect, everything will become so clear and easy for you. You will experience such an elevated stage.

So experience the happiness of the Golden Age now, at the Confluence Age. In the Golden Age we will be happy, always – when will we emerge those *sanskars*? Now! Fill yourself with those *sanskars* now...we make no effort in the Golden Age. This is the time.

Many are experiencing now what it is to **become a prince from a beggar**. Nothing is mine, but still we are princes. Body also belongs to Baba now. Every day that passes, I always thank Baba for using this body in such a worthwhile way. I thank Baba for everything.

Baba said: Always have the enthusiasm of this time. Experience now what you want to experience in the Golden Age, through the *sanskars*. You do have those *sanskars*, just emerge them more. Then you will experience the

attainments. You are all the instruments. Every child is an instrument, and Baba pays a lot of attention to each and every child. The more yoga there is, the more we will receive Baba's cooperation, help and support. Then, our journey will become easier ...and more joyful.

After sharing all this, Baba accepted *Bhog*. Baba gave a lot of love and remembrance to all who contributed to preparing this *Bhog*. And again reminded us: just keep these two qualities with you: trust and courage. Then you can fly, always.

I came back with a lot of love and remembrance for all of you.

Om Shanti
