

Bhog Sandesh | July 28, 2026 (Didi Manmohiniji's Day) via Mohini Didi

Om shanti.

I took everyone's love and remembrance while offering Bhog for Didi Manmohiniji. Baba looked at everyone with a lot of love-full *drishti*.

After a few moments, Baba said: All the children have a question in their mind—in the present times, looking at the current situation in the world, what effort should we make? Baba did not immediately answer.

Baba emerged Didi, and offered her *Bhog*...and Didi accepted. Baba said that: **The success and completion of the Yagya happens when everyone has spiritual love for all the souls of the whole world.** Nobody in the world knows about spiritual love. But you children do. Look at everyone in the soul conscious stage, and give and take love-full, spiritual *drishti*.

Secondly, Baba said: As much as you churn the knowledge, that much power will come. According to how much power you have, any situation, attack of Maya, or settling of accounts will become very easy. Nothing will feel difficult.

Then Baba asked Didi for her thoughts on what efforts she wants to see now? (And, of course, Didi always signalled only to do what Baba says.)

Baba said: Every day Baba signals what He wants us to do. Every day, constantly give attention to what Baba signal. Keep making effort...never be lazy or careless. Baba gives us teachings that are a response to the time. In the *lokik*, when souls are seeking a solution, some open the *Gita* and others the *Guru Granth Sahib*— and use the teaching on the page they open to ...they use those teachings. But you get the Godly Teachings, the Murli, every day! You receive Baba's Avyakt Signal every day!

So internally, there should be so much happiness: Today, Baba has told me what to do. So, this question of what effort to make should not arise. Whatever Baba has said for me to do today, I have to make that effort. Then, whatever is your destination of becoming full and complete, you will reach there.

Baba said: When you look at the situation in the world today – that should inspire your efforts to become intense. Whether through volcanic yoga, or the light and might of knowledge and yoga – deepen it day-by-day.

Then, Baba said: Didi, everyone remembers you!

Didi smiled, looked at all of else, and said: **Always keep Baba with you as your Companion.** A Companion who sits with you, eats with you, moves with you...make Baba such a Companion. Whenever you move along in this way, **then Baba, as a Companion, gives you all the powers in return.** In the present time, take Baba's Company...not just while in seated yoga, but while moving through the day and performing every karma. Just stay with Baba. Baba is *Karankaravanhar* – and you will receive all powers from Him as blessings.

For a few moments, Baba and Didi gave us – not just love-fill *drishti* – but powerful *drishti*. And sent lots of love and remembrance for each one of you.

Om Shanti
