Om shanti.

I shared everyone's love remembrances with lots of love. **Baba was looking at each child, and said: Each child is a diamond for me. Is very valuable.** Each child should see their own value also. So, how do you maintain this awareness that Baba has unlimited love for each one of us? Baba is the Ocean of Love, and fills everyone with a lot of love.

After a few moments I said: Baba it is with love that I have brought *Bhog* for you. Baba accepted *Bhog* with love. And then said: When sit in front of Baba, what do you receive?

I said: Baba's Blessings.

Baba said: Okay, what blessings do you want at this time?

I said: Baba, I have been thinking that I want two blessings:

1. **To always to be cheerful**
2. **To always to be very sweet.**

To be constantly cheerful and sweet in my thoughts, words, and *drishti*. In everything.

Baba looked at me and said: Then follow Brahma Baba. Brahma Baba was always cheerful. Always. When you have a connection with Baba, yoga with Baba, you definitely become, and remain, very cheerful. And also, always remember your birth right. **Do you remember your birth right? Success, and also victory, is guaranteed. Victory for your personal journey, and success for the task. Always remember these two words, and you will always have power.** You will feel strong. In any task or program you prepare for as a karma yogi, it is **important to create such lovely and powerful vibrations – so powerful that anyone who comes into those vibrations will be touched. For that, you have to charge your battery. You can charge your battery by going into deep silence.** Be very peaceful. If you do that every hour, then the whole place will have such powerful vibrations—of not just peace—but Baba's Presence. So, charge your battery – and remain very happy! Cheerful! Then you will see the wonder and magic. You will definitely experience success as a result.

When you go into silence, not only is your own battery charged, but it also creates the atmosphere. And amongst yourselves, just have sweet sharing of love-full, sweet *drishti*...because that ***drishti* will also create the atmosphere of Baba's Love.**

So today Baba was giving blessings for our program. I did say to Baba we need your blessings. Baba said: Blessings are definitely there – but what you have to do is also important so not just yourself, but others can also feel those blessings.

Definitely remember "Success is your Birth Right."

Then Baba gave lots of love remembrances for everyone.

Om Shanti

Brother Charlie was in Peace Village for a special retreat, and the following blessings were shared: Baba's has special love for you. You have come to share, not just Baba's love, but His Blessings too. I am sure everyone in the retreat will have some special, wonderful experience. Lots and lots of love to you!
