

Bhog Sandesh | July 9, 2026 via Mohini Didi

Om shanti.

In remembrance of Baba, I took everyone's love-full remembrance for Baba. As I came in front of Baba it was very beautiful, because **Baba received everyone as a friend**. Baba gave His Hand to everyone, as a friend. Baba was giving drishti to everyone – and I was also taking drishti.

Baba accepted Bhog. And I shared that I also had brought special bhog for some souls. After shaking hands with each one, Baba said "You all are my friends, and my companions." Baba came to adopt you, and you became Baba's children. Baba came to make each child, not only worship-worthy, but also, like Me. Both. To be like Baba, and also worship-worthy.

Then Baba said: Every child is sincere, making good efforts. Baba gives not only love to everyone, but a lot of attention. Because He came to make all of you perfect. **Baba's Drishti is always on each child**. Wherever, whatever is needed by the soul – Baba definitely gives that. Some souls, while they are settling karmic accounts, ask Baba for power...some ask for mercy...some want to be forgiven. Baba does everything...whatever the soul needs. Because, we are all His Children.

Then Baba Said: Recognize that at the Confluence Age, I play the part of Father, Teacher and Satguru. I am available for all three services: Parent, Teacher, Satguru. As God, I am also available all the time for the devotees. Even for those who do not believe in me, He still cares for them... because all are His Children.

The only attention you all have to pay is to not allow you mind to lose anything, or become weak. Sometimes children lose hope, or lose courage, or lose trust. You not only have to maintain all these powers – but you have to increase them. Accumulate more power. Because in the final times, all of you, plus the world, will be settling a lot. Baba said: You look outside in the world. There is battling everywhere. Sometimes you children also forget that it is the time of settlement. **You don't have to battle in settlement. Just be in remembrance.** Baba forgives you. Whatever little has to be settled...it will be. Baba, at this time, even as Supreme Judge remains with us as the Father. Take full benefit of the Confluence Age. Receive from Baba. Take whatever help is needed. Baba is the Knower of the Three Aspects of Time. He is helping each of you to create all three aspects for the self that is, your eternal stage.

Whatever you did in past, do at the present, or are creating for the future – you know the quality of that. Baba has to accomplish His Task. And you all have to accomplish your tasks – that is – become companions. One way to become a companion is to remind the self: I am Baba's instrument. I have to be a good instrument, so Baba can get His Task accomplished. Children do sometimes forget me; they become busy. But Baba is always present.

Baba continued to give love-filled drishti, and then again said: you are my good friends.

I took drishti from Baba and came back here, bringing lots of love for all of you.

Om Shanti.
